

Upcoming Speaking Opportunities

Commentary of May 10, 2008 — Events in Wauwatosa, WI and Portland, OR

Two and maybe more presentations are happening soon. One is on Tuesday, May 13, 2008, and others are scheduled for June 2008.

Temple/Tomb Presentation — Tuesday, May 13, 2008, 6:45 p.m.

I mentioned this lecture in a previous Commentary (March 14, 2008). The public lecture will take place at the Wauwatosa Public Library on Tuesday evening, May 13, 2008 at 6:45 p.m.

I will give a combined Temple/Tomb presentation lasting 1½ hours. The address is 7635 W. North Avenue (on the corner of Wauwatosa Avenue [76th Street] and North Avenue). There is plenty of parking and the location of the Wauwatosa Library is easy to reach from Milwaukee and the surrounding area.

The event is free, of course. Everyone is welcome. I cover a great mass of historical material in a surprisingly short time (short for me) and audiences are usually overwhelmed.

Wauwatosa (a western suburb of Milwaukee, Wisconsin) is home territory for me and so is that library. I grew up within 6 blocks of that library and spent many happy hours there as a teenager.

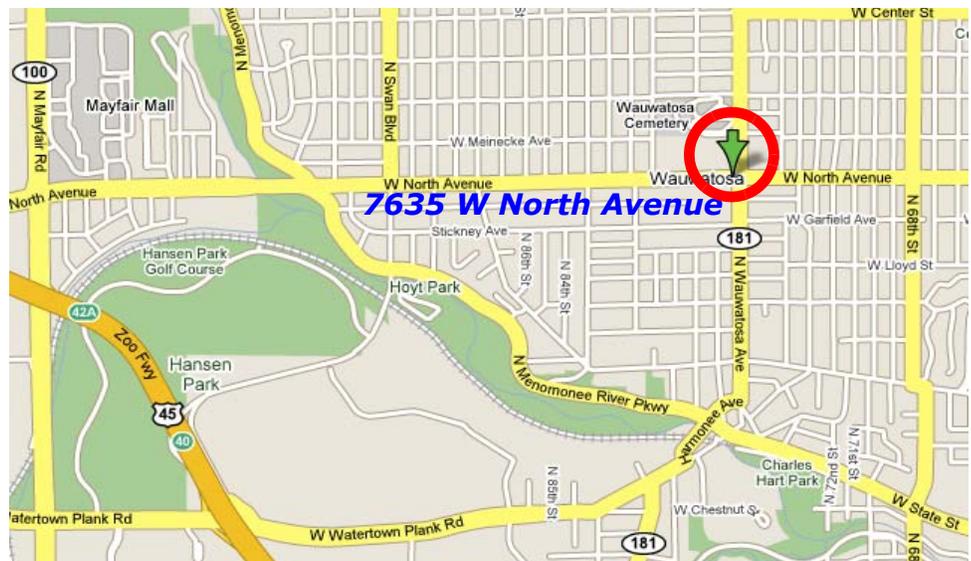

I look forward to seeing some old friends from school. Some relatives may show up.

Most of all I look forward to meeting new acquaintances who appreciate the work of Dr. Ernest Martin and the continuing work that ASK is doing. Be sure to introduce yourselves; I want to greet you all. I also want to see old friends of ASK again.

Afterwards, I would be pleased to continue our discussions about the Temple/Tomb presentation — or any other topic — over coffee somewhere nearby, if possible. It should be a fun evening for everyone who attends.

David's Tomb Presentation — June 2008 — Portland, OR

Date and time scheduling details are being worked out for me to deliver Part 2 of an expanded Temple/Tomb lecture series. This second part will take place some time in early June, in the eastern portion of Portland, Oregon.

This lecture a visual slide presentation showing the evidence for the location and future discovery of King David's Tomb. The bodies of King David and others are in the tomb structure, in the City of David, along with (hopefully) many important objects and written documents inside the 5 to 7 chambers of the tomb structure.

In the time of the apostle Peter it was public knowledge where King David was buried. It was also public knowledge that his sepulchre was intact, and that David's body was in the Tomb:

"Men and brethren, let me freely speak unto you of the patriarch David, that he is both dead and buried, and his sepulchre is with us unto this day. ... For David is not ascended into the heavens."

• **Acts 2:29, 34**

In this lecture I go into detail (greater than in a combined Temple/Tomb lecture) to demonstrate clearly the location and future discovery of the Tombs of the Jewish Kings David and Solomon. Biblical evidence shows that these Tombs are in close proximity to the correct Temple location demonstrated by Dr. Martin's Temple research that ALL the Temples of Israel were located above and west of the Gihon Springs. Only with that vital information can the Tombs at Jerusalem be located.¹

Such unopened Tombs would yield information far more important than any ancient tomb, much more than the Tomb of King Tutankhamen. The value to the world of would make the Dead Sea Scrolls pale into relative unimportance.

This presentation will be at a local Portland congregation of the Church of God (Seventh Day). I will notify you all in the Portland area to attend, particularly if you have not seen this presentation before.

Temple/Tomb Presentation – June 2008, Beaverton, Oregon

It is my intention to schedule another combined Temple/Tomb presentation later in the month of June in my home town of Beaverton, Oregon. This will be a similar presentation to the one in Wauwatosa.

Sponsor Lecture Presentation?

If you would like to sponsor a presentation on the Temple and Tomb evidence, feel free to contact me by email at the end of this Commentary. I also have lecture presentations on "The Nature of God" (the PowerPoint presentation I gave at the 2007 One God Conference) based on "[Elohim and the Son of God, Part 1](#)" and "[Elohim and the Son of God, Part 2](#)"; and "The 'Deficiencies' of the Ten Commandments" based on Dr. Martin's article "[The Ten Commandments](#)." All of these presentations are shattering to status quo thinking, and different than anything you have heard before, although the material has been presented on the ASK website. Of course, the work I do continues the foundational research of Dr. Ernest L. Martin.

As a reminder, I will be in Providence, Rhode Island and Boston, Massachusetts in the middle of November 2008, so perhaps something can be scheduled in those cities around that time.

1. See the Temple information at the ASK "[Temple Update](#)" webpage, provable from historical eyewitness accounts. All statements by scholars that the Temple was (supposedly) located on the Haram esh-Sharif are wrong. There are a myriad of "theories" as to where the Temple was located on the Haram platform. All are wrong. Each theory contradicts the others. Anyone who continues to states the Temple is "somewhere" on the Haram is working from old and erroneous information. No one familiar with Dr. Martin's Temple research could ever call the Haram the "Temple Mount."
